

# Your Resourcing Partner for Technology Talent

*Flexible resourcing solutions designed to meet your needs, on your terms.*

Lexel Resourcing was established to provide access to specialist Technology, Digital & Data talent for permanent and contract opportunities.

Our specialist team offer a combined blend of industry knowledge with decades of recruitment expertise.

Innovative in mindset, we take pride in understanding every client's unique business, to best deliver to your requirements.

## Why Work With Us?

**Our Point of Difference** - By combining specialist IT Resourcing with a full IT Service Provider capability, Lexel offers flexible delivery models. From on-demand technology talent to fully outsourced, outcome based solutions - ensuring the best solution every time.

**Customised Resourcing Solutions** - We're not tied to one model - we shape our approach around your resourcing needs.

**Speed + Flexibility** - We move fast. Our consultative approach and ready-to-go talent pools deliver rapid results.

**Access to Expertise** - Tap into a deep network of top-tier screened / qualified contractors and permanent talent.

**Right Fit** - We make sure we understand the culture of your team, organisation and your technical environment.

**Partnership** - We are committed to the longevity of our relationship with you.
